MNETC Clients

Dear Valued Customer,

In response to a large number of people reaching out looking for training while furloughed or required to “shelter in place”, we would like to inform our most valued customers that we will be offering some added training opportunities over the next few weeks.

The MN DLI has decided to extend the continuing education reporting deadlines 90 days for anyone whose license expires in March, April or May. License holders will still have to submit a timely renewal of fees.

We have posted some daytime webinars on our website. We will be offering a deferred payment schedule for anyone wanting to take CE classes but cannot make an immediate payment. Payments can be deferred up to 60 days and CE credits will be entered once payment is received.

Please let us know if there is anything further that we can do to help you meet your continuing education needs.

Thanks,
Amy DiPaola, Owner
